DEDICATION

We take great pleasure in dedicating the yearbook of 1952 to the Wildcat team and coaches. They have worked unceasingly and tirelessly to make the Wildcats known and respected all over the state. With co-operation and spirit they have worked together to give Wink High School the largest championship title it has ever had. We hope that this dedication will express our appreciation in a small way to the coaches for their excellent job. This team has exceeded the high expectation that we hold for all Wildcat teams.

SUPERINTENDENT'S MESSAGE
1951-52

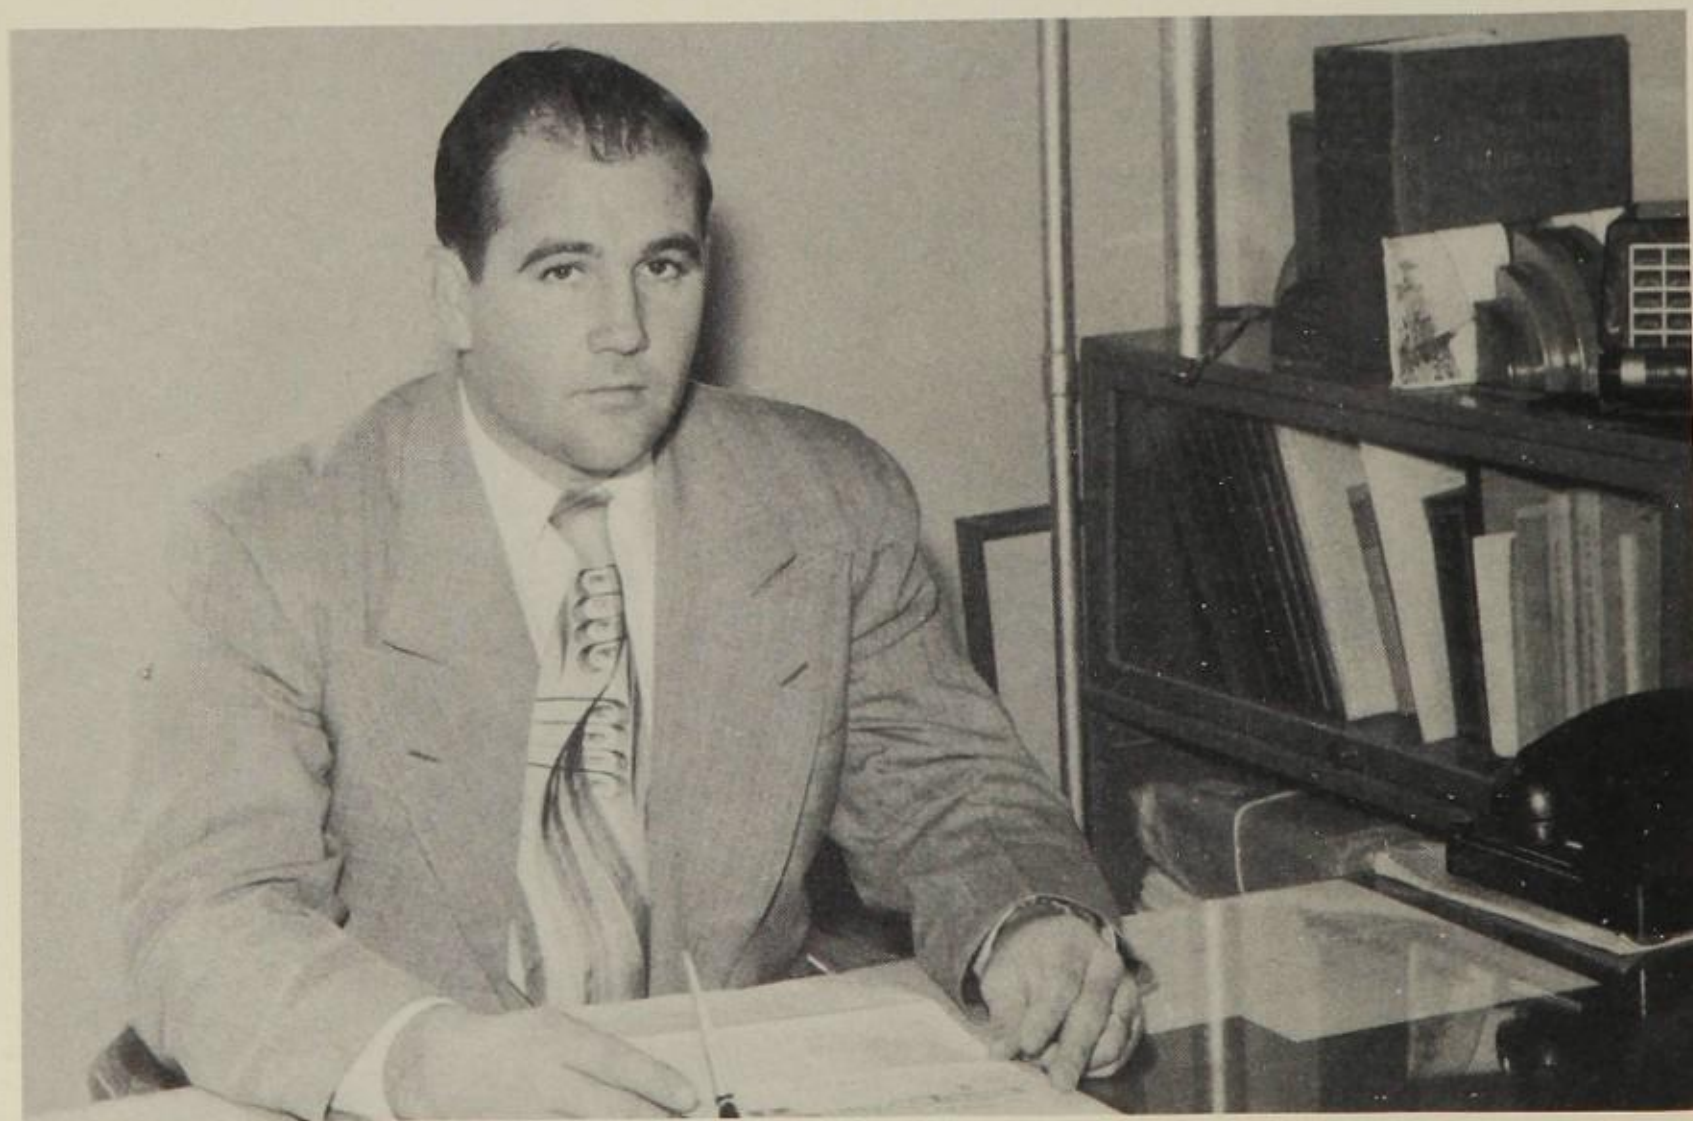

It has been said that "good schools are expensive, but poor schools are more expensive". To my way of thinking, the latter part of this statement is certainly true. I challenge the first part. For any commodity or service to be valued, the returns it gives must be considered. Measured by the proper standards, education is generally recognized as a good buy. Thinking people differ in their opinions as to how and by whom schools should be operated, but few have challenged the basic idea of education.

The citizens of Wink are to be commended for the liberal support they have given to their schools. They can expect continued improvement so long as such support prevails. We point with pride to the accomplishments of our students, as well as the quality and records of our graduates.
